

INTERNSHIP OPPORTUNITY FOR COURSE CREDIT AT THE UC BERKELEY EARTH SCIENCES LIBRARY

WITH TRACK INFO SERVICES, A UNIQUE ENVIRONMENTAL INFORMATION COMPANY

Track Info Services is a unique provider of environmental information regarding real estate to the environmental engineering & consulting industry, state transportation departments, city & county government agencies, banks, insurance companies and major corporations. We assist those organizations by helping them identify known or potential environmental concerns related to industrial, commercial & residential real estate. Track Info Services utilizes the latest technology in on-line systems and Geographic Information Systems to instantaneously deliver information to our customers.

Track Info Services has an interesting internship opportunity right on campus at the UC Berkeley Earth Sciences Library! Each intern will gain valuable experience in an area related to their major, receive course credit from the UC Berkeley Geography Dept. and a stipend based on performance at the end of the internship.

The Aerial Photo Internship The aerial photo internship will offer each intern an opportunity to become familiar with and learn how to utilize the Earth Sciences Library's aerial photo collection. The intern will use this knowledge to compile an aerial photographic record of a property from first land use to present day, analyzing each aerial for potential environmental liabilities for use in a Phase I Environmental Site Assessment (ESA). Each intern will use Photoshop to digitize, crop and adjust specific study sites from the photos and aid the library to put their unique collection in digital format. Some projects will also involve working with USGS historical topographic maps to further evaluate each study area. Interns will also be introduced to Track Info Services G.I.S software and applications providing real-time to governmental records data identifying businesses or properties with potential environmental concerns.

Minimum Applicant Requirements:

- *Current Student of the Geography Dept, Environmental Science, Earth & Planetary Science
Other majors may also be considered*
