

PERMIT NO: _____

Expires: _____

OREGON PARKS AND RECREATION DEPARTMENT
SCIENTIFIC RESEARCH and COLLECTION

PERMIT APPLICATION

Instructions: Applications must be typewritten with original signatures. The precise location of the proposed work must be shown on an USGS topographic map. Application should be sent to the department's Salem office. Please allow for a minimum of 30 days to process the permit application.

Applicant's Name:

Affiliation:

Address:

City/State/Zip:

Telephone Number:

Fax Number:

e-mail address:

Names of others involved in project/study:

(Attach resume or curriculum vitae for principal investigator and all field staff)

PROJECT DESCRIPTION (INCLUDING PURPOSE, METHOD OF INVESTIGATION,
METHOD OF COLLECTION, THE LOCATION AND DURATION OF PROJECT):

[If a research project, please submit project proposal].

DATA COLLECTION:

Plant Soils Fungi Seeds Water Animal Rock

Other (specify) _____

If Plant/Animal – Identify the Species to be researched or collected:

Is/are the species a:

Name of Species

Federal endangered or threatened species? Yes No _____

Federal candidate species? Yes No _____

State endangered or threatened species? Yes No _____

State sensitive Species? Yes No _____

Voucher specimens will be deposited at:

All Activities:

Will the project involve ground disturbance: Yes No

If so please describe the type of ground disturbance that will occur:

Additional Permits:

Are additional federal or state permits required? If so, please list and provide a copy of each permit:

Parks Units for Proposed Study:

Dates of Proposed Study:

PERMIT

STANDARD PERMIT CONDITIONS AND RESTRICTIONS:

By acceptance of this permit, Permittee agrees to abide by the following conditions:

1. This permit applies only to non-cultural resource materials, and is limited to the kind, number, and size of specimens described on the front of this form.
2. All activities shall comply with applicable federal, state, and local laws, regulations, and ordinances. Any necessary federal, state, or local permits shall be obtained prior to the beginning of the activity. Copies of those permits must be provided to the Park Manager before work begins.
3. The Permittee assumes full responsibility and liability for any damages or injury to any member of the public arising out of the activity, including personal injury and property damage, and for any damage to park property.
4. The Permittee shall indemnify and hold harmless the State of Oregon, its Parks and Recreation Commission and members thereof, the State Parks and Recreation Department, and its officer, agents, and employees against any and all damages, claims, or causes of action arising from or in connection with the activity.
5. The study shall be completed only in those areas identified in the permit application and as identified on a 1:24,000 scale USGS map with a circle drawn around the proposed study area.
6. The Permittee shall carry a copy of this permit at all times while on OPRD property, and must be able to show the permit to OPRD staff upon request.
7. The collections allowed under this permit shall be used for scientific purposes only, shall be dedicated to the public benefit, and shall not be used for commercial purposes.
8. Except for the resources indicated in the permit, the taking or disturbing of those resources is specifically prohibited.
9. Any holes dug must be refilled. All holes must be dug with a shovel or a hand auger.
10. The collection of plants shall not occur within 200 feet of any road, parking lot, trail, campground, picnic area, or restroom, unless the collecting site is completely screened from view, in which case 100 feet will be the minimum distance.
11. No more than 1% of the population will be collected (i.e., one out of every hundred individuals). Permittee will use scientific judgment and will collect specimens only from populations that can tolerate collection without jeopardizing the viability of that population.
12. The Permittee shall submit a summary of the information gathered to the Park Manager where the investigations took place, and to the OPRD Natural Resource Section in Salem, Oregon. The Department further requires that the Permittee shall provide to the Department any materials published as a result of this permit.
13. Contact the Park Manager(s) at least 24 hours prior to each occurrence of the permitted activity.
14. OPRD reserves the right to cancel this permit for any reason.
15. For activities on the ocean shore, a special drive-on-beach permit is needed for any areas closed to motor vehicles.

16. If during project operations you discover any cultural material, all work will immediately stop and contact the state archaeologist (Dennis Griffin (503) 986-0674) will be contacted to assess the discovery.

Special Conditions:

Any special conditions will be included as an attachment to the permit.

I, the undersigned, have read and hereby agree to the conditions and restrictions listed above. I further understand that the department may impose special conditions. I hereby agree to abide by any special conditions if this permit is granted.
