

Department of Nutritional Sciences & Toxicology, University of California at Berkeley
Fall 2003 Seminar Series

September 3	Kathleen M. Giacomini, Ph.D. Professor & Chair, Dept of Pharmaceutical Sciences, UC San Francisco School of Pharmacy	“Genetic Variation in Xenobiotic Transporters”
September 10	Sylvia Jeewon Kim, Ph.D. Postdoctoral Fellow, Department of Molecular Pharmacology, Stanford U. School of Medicine	“Stable Isotope Labeling Technique for Measuring Cell Turnover Rate in Rat Colon in Vivo”
September 17	Arthur L. Klatsky, M.D. Senior Consultant, Cardiology Kaiser Permanente Medical Center, Oakland	“Alcohol Drinking and Cardiovascular Diseases”
September 24	Donald P. Weston, Ph.D. Professor, Integrative Biology University of California at Berkeley	“Assessing the Digestive Bioavailability of Sediment-Associated Contaminants”
October 1	Roger B. McDonald, Ph.D. Professor, Department of Nutrition, University of California, Davis	“The Role of Hypothalamic Neuropeptide Y (NPY) in the Development of the Anorexia of Aging”
October 8	Gerald M. Reaven, M.D. Professor, Cardiovascular Medicine, Stanford University Medical Center	“Insulin Resistance – the Linchpin between Obesity and Cardiovascular Disease”
October 15	Kenneth N. Raymond, Ph.D. Professor, Department of Chemistry University of California at Berkeley	“The Role of Iron in Human Disease: from Microbes to Man”
October 22	Thomas S. Scanlan, Ph.D. Professor, Dept of Pharmaceutical Chemistry, University of California, San Francisco	“The Chemistry and Pharmacology of Thyroid Hormone Action”
October 29	TBA	TBA
November 5	Simon Melov Ph.D. Associate Professor and Director of Genomics, Buck Institute for Age Research, Novato, CA	“Mitochondrial Oxidative Stress – Causes and Consequences”
November 12	Kee-Hong Kim, Ph.D. Research Associate, Sul Laboratory, Dept of Nutritional Sciences & Toxicology, University of California at Berkeley	“The Role of Adipose Tissue-Specific Secretory Factor (ADSF)/Resistin in Adipogenesis and Insulin Action”
November 19	Donald Smith, Ph.D. Professor, Environmental Toxicology University of California, Santa Cruz	“The Emerging Threat of Manganese”
December 3	M. Daniel Lane, Ph.D. Distinguished Service Professor Department of Biology, Johns Hopkins University School of Medicine, Baltimore	<i>First Annual Lepkovsky Memorial Lecture</i> “Control of Food Intake: A Novel Hypothalamic Mechanism”

Seminars are Wednesdays at 4:10 pm in Room 114 Morgan.

Refreshments are served at 3:45 p.m. in 120 Morgan Hall.
