

Dara J. O'Rourke, Ph.D.

Assistant Professor
Dept. of Environmental Science, Policy, and Management
University of California, Berkeley

Division of Society and Environment
137 Mulford Hall
Berkeley, CA 94720

Tel: 510-643-3110
Fax: 510-643-2504
orourke@nature.berkeley.edu

RESEARCH AND TEACHING INTERESTS

Research the environmental, social, and equity impacts of global production systems and new strategies of democratic governance. Research political economy and policy aspects of global supply chains, from resource extraction, to manufacturing, to use and disposal. Interested in governmental and non-governmental strategies for monitoring and accountability over production systems, and new regulatory forms. Evaluate models of public participation in environmental and labor policy issues and innovative regulatory strategies. Teach courses on environmental policy and regulation, environmental justice, and governance of global production.

EDUCATION

University of California at Berkeley	Ph.D., Energy and Resources Program	1999
University of California at Berkeley	MS, Energy and Resources Program	1995
Massachusetts Institute of Technology	SB, Mechanical Engineering and Political Science	1989

FELLOWSHIPS, HONORS, AND AWARDS

Outstanding Publication Award, Environment and Technology Section, Amer. Soc. Assn.	2005
UC Berkeley Chancellor's Faculty Award for Academic Service-Learning	2005
UC Berkeley American Cultures Fellow	2003-04
Mitsui Career Development Professorship, M.I.T.	2001-03
Switzer Environmental Fellowship	1998-99
Simpson Memorial Research Fellowship	1998-99
Voted One of the "Male Sports Figures of 1997" by the Village Voice	1998
Foreign Language and Area Studies Fellowship (Vietnamese)	1995
National Science Foundation Graduate Fellowship	1994-98

TEACHING

- “Environmental Justice,” ESPM 163AC and Sociology 128AC, Undergraduate course with approximately 130 students. See article discussing the course at: http://www.berkeley.edu/news/berkeleyan/2005/03/02_orourke.shtml
- “Governance of Global Production,” ESPM 260, Graduate seminar.
- “Globalization, Sweatshops, Toxics, and You,” ESPM 24, Freshman Seminar.

- “Cases in Environmental Science, Policy, and Management,” ESPM 201B, Required Graduate “Methods” Seminar.

Former Courses taught at MIT:

- “Politics, Justice, and Social Change,” Course team taught with Noam Chomsky and Archon Fung. Approximately 270 students.
- “Environment and Society: Managing the Environmental and Social Impacts of Industrial Society” Undergraduate Course, syllabus available: web.mit.edu/11.122/www/
- “Environmental Policy and Regulation” Graduate Course, team taught.
- “Environmental Justice: Race, Poverty, Environment, and Regulation” Graduate Course, syllabus available: web.mit.edu/11.368/www/
- “Technology, Industry, and Ecology: Transforming Industry Through Policy, Planning, and Design” Graduate Course, syllabus available: web.mit.edu/11.369/www/

PROFESSIONAL EXPERIENCE AND CONSULTING

Massachusetts Institute of Technology Cambridge, MA
Assistant Professor (1999-2003)

Served as a tenure-track assistant professor in the Environmental Policy Group in the Department of Urban Studies and Planning at MIT. Raised funds for and implemented an internationally recognized research program. Advised undergraduate, Masters, and Ph.D. students. Taught courses on Industrial Ecology, Environmental Justice, and Environmental Policy and Regulation. Also served on a range of departmental committees.

National Environment Agency Hanoi, Vietnam
Consultant Sept. 2000 to Feb. 2001

Served as the project leader and author of a study on public disclosure of environmental information in Vietnam. Analyzed current environmental data gathering, management, and distribution by the Vietnamese government, international agencies, and NGOs. Worked with the National Environment Agency to propose a new system for environmental data management and disclosure to the public. Wrote proposal to the World Bank for funding a pilot project on environmental information disclosure for Hanoi which will be completed in 2002.

Independent University Initiative San Francisco, CA
Consultant Sept. 1999 to Sept. 2000

Served as a consultant to the Independent University Initiative on Sweatshops, a joint-research project funded by Harvard University, Notre Dame, Ohio State, the University of Michigan, and the University of California. Conducted research on the apparel industry producing university-logo garments, specific factory conditions in China, South Korea and Indonesia, and systems to monitor factory performance around the world.

United Nations Development Programme Hanoi, Vietnam
Urban and Industrial Environmental Specialist Nov. 1998 to April 1999

Worked as the international specialist in urban and industrial environmental management on a project to assess the effectiveness of development aid in Vietnam. Researched past aid projects in environmental sector, energy, urban planning, industrial development, and infrastructure. Analyzed policies and institutional arrangements of responsible government agencies and international donors. Presented lessons of past projects and recommended strategies to enhance future development assistance.

United Nations Industrial Development Organization Bien Hoa and Viet Tri, Vietnam

Economics and Incentives Expert Oct. 1996 to August 1998
Worked as a consultant on two UNIDO projects focusing on industrial pollution control in Vietnam. Analyzed firm environmental management systems and technical and institutional barriers to pollution prevention. Evaluated the potential for market-based instruments for pollution control. Analyzed internal firm incentives for environmental management changes. Assisted in waste audits of case study factories, and review of permit process.

The Royal Netherlands Embassy Hanoi, Vietnam
Technology Consultant and Mission Leader March to April 1997
Led an appraisal mission of a project to establish a Capacity Building Center for Small and Medium-sized Enterprises (SMEs) in Vietnam focused on the promotion of cleaner production technologies. Researched the current economic and institutional situation for SMEs in Vietnam, assessing environmental problems and technical assistance needs.

Economic Development Institute Washington, DC
Pollution Prevention Advisor September 1995
Consultant to the Economic Development Institute of the World Bank on the design of a program on industrial pollution prevention policy in Vietnam. Participated in development of program objectives and activities with Vietnamese environmental officials, lectured on pollution prevention policies, and facilitated discussions on research and training needs.

SwedeCorp Hanoi, Vietnam
Technical Instructor February 1995
Consultant to SwedeCorp (a branch of the Swedish International Development Agency) and the Vietnamese Ministry of Heavy Industry as a lecturer at the country's first pollution prevention workshop. Trained government officials and factory managers on industrial waste audit methods, management and technology changes to prevent pollution, and environmental cost accounting.

Center for Environmental Science and Technology Vietnam
Environmental Researcher June to August 1994
Conducted research in Vietnam in collaboration with the Centre for Environmental Science and Technology (CEST) at the Hanoi University of Technology. Designed, raised funds for, and implemented a research project analyzing environmental impacts of recent industrial development in Vietnam. Case studies focused on three sectors: pulp and paper, chemicals and fertilizers, and textiles.

United Nations Environment Programme Bangkok, Thailand
Project Coordinator/Consultant Dec. 1992 to June 1993
Coordinated the Network for Industrial Environmental Management (NIEM), a network composed of research institutions, laboratories, government agencies, and pulp and paper mills located in eight Asian countries (China, India, Indonesia, Malaysia, Philippines, Sri Lanka, Thailand, and Vietnam). Catalyzed participating institutions to exchange information on environmental management in pulp and paper mills. Primary functions included design of the third phase of NIEM activities to focus on cleaner production methods, and to advance technology transfer between participating countries.

Pacific Northwest Pollution Prevention Research Center Seattle, WA
Technical Director Oct. 1991 to Dec. 1992
Coordinated research efforts for an environmental non-profit focusing on pollution prevention. Researched cleaner technologies and alternative manufacturing processes that prevent or reduce toxics use at their source. Led waste reduction projects on industries key to the Northwest region such as pulp and paper, oil and gas production, fish processing, aerospace, and agriculture. Coordinated industry roundtables and research projects to assess potential areas for waste reduction.

United Nations Environment Programme
Research Associate

Bangkok, Thailand
Feb. 1991 to July 1991

Researched industrial pollution in Thailand, specifically examining the use of CFCs and other ozone depleting chemicals in manufacturing industries. Conducted on-site inspections and interviews at production facilities to identify usage trends and potentials for emissions reductions. Assisted Thai government and private sector in development of hazard reduction programs.

ICF Incorporated
Research Assistant

Washington, D.C.
Aug. 1989 to Jan 1991

Worked on technical issues related to global climate change and ozone depletion. Researched and wrote a manual on conservation and recycling practices for CFC-based solvent cleaning. Prepared report on the human health and environmental effects associated with greenhouse warming. Researched CFC and halon uses in refrigeration, fire extinguishing, and solvent cleaning systems, identifying alternative systems. Ran computer model studying the relative atmospheric concentrations of chlorine and resulting levels of ozone depletion associated with different regulatory options.

Weyerhaeuser Corporation
Mechanical Engineer

Tacoma, WA
Summer 1987 to Spring 1989

Worked in the Forests Products division on Weyerhaeuser's consumer products development. Designed second generation prototypes for Woodscape™ landscaping timbers. Worked on the design and manufacture of a proto-type end-glue, finger-jointing machine. Worked with mills in the Pacific Northwest on manufacturing process engineering.

PUBLIC SERVICE

- Board of Trustees, Robert and Patricia Switzer Foundation.
- Committee Member of the National Academy of Sciences, National Research Council Committee on "Monitoring International Labor Standards," 2002-2004
- Board member, Independent Monitoring Project, Berkeley, CA
- Board member, Public Information Network, Seattle, WA.
- Advisory Board, Business Ethics Network, Portland, OR.
- Technical Advisor on Environmental Monitoring and Benchmarking for the "International Shell Campaign," Boston, MA.
- Technical assistance to nongovernmental organizations in Hong Kong and China on monitoring of workplace health and safety conditions in multinational factories.
- Technical assistance and training for community members in Louisiana, California, and New York on monitoring of air quality near refineries and chemical plants.

UNIVERSITY SERVICE

- College of Natural Resources Executive Committee – 2004-Present
- UC-Wide Standing Committee on UC Code of Conduct – 2004-Present
- Center for Southeast Asian Studies – 2003-Present
- Environmental Politics Working Group – 2004-Present
- UC Chemical Policy Advisory Group – 2004-Present
- ESPM Bioethics Faculty Search Committee – Fall 2003
- ESPM Computer Committee – 2003-2004
- Selection Committee for a Bioethics Lecturer for ESPM 162, Spring 2004.

PROFESSIONAL MEMBERSHIPS

- American Collegiate Schools of Planning (ACSP)
- American Sociological Association (ASA)
- International Society for Industrial Ecology (ISIE)

PROFESSIONAL SERVICE

Editorial Reviewer for: California Management Review, Sociological Perspectives, Environmental Science and Technology, MIT Journal of Planning; Environmental Health Perspectives, International Journal of Occupational and Environmental Health, Industrial Relations Quarterly Review, Journal of Environmental Planning and Management, Temple University Press, the United Nations Research Institute for Social Development, and others.

FUNDRAISING

I have raised over \$700,000 over the last six years for my research. I am the Principal Investigator on a State Department-funded project on Advancing Labor Rights in China (\$370,000). I am a co-Principal Investigator of a \$1 million Hewlett Foundation-supported Project on Public Problem Solving (\$105,000 of the which is designated for my research). I have also raised funds from the MacArthur Foundation (\$93,000), the Beastie Boys (\$6,000), the Mitsui Corporation (\$40,000), the Berkeley COR grant (\$7,300), the Agricultural Experiment Station (\$45,000), the Humanities and Social Sciences Fund at MIT (\$10,000), and the United Nations Industrial Development Organization (\$40,000).
