

Evolution 2016 Graduate Student Bingo

Welcome to the first annual Evolution Bingo! To participate:

- Print the attached doubled sided bingo card and bring it with you to Evolution in Austin;
- Complete as many challenges as you can during the meeting;
- Keep clear notes about when and how you complete each challenge on the reverse side (also feel free to tweet your progress – photo documentation a plus!)
- Have fun, make new connections and enjoy the meeting!
- After the meeting, scan and email your entry to Bree at rosenblum@berkeley.edu by June 23rd, 2016.
- Winners will be determined based on number of rows, columns, and major diagonals completed. Evolution bingo is on an honor system, but we will spot verify ;). Decisions on winners are at the sole discretion of the judges.
- Prizes include: eternal fame, membership to SSE, awesome science books, cool t-shirts, and several surprises.
- Thanks to co-conspirators: Gideon Bradburd, Sam Yeaman, Luke Harmon, & Mike Kiparsky

Tweet your Bingo accomplishments “#Evolutionbingo #lol #evol2016”!

Scan and submit your notes to Bree at rosenblum@berkeley.edu by June 23rd.

Evolution 2016 Graduate Student Bingo - Challenges

Name: _____

Email address: _____

Year in grad school and institution: _____

	A	B	C	D	E
1	Wear a red clown nose to a poster session	Ask a professor you don't already know to tell you about the most unexpected thing that has occurred in their professional life	Buy someone you don't know coffee and talk about your work	Present your dissertation research as a silent interpretive dance to a group of at least 4 people	Tell a publishing house representative about a book you would like to write one day
2	Take a selfie with someone (that you didn't already know) that works on the same study organism as you	Have a quote from Star Wars in your talk	Find someone who has both eaten a worm and can do the break-dancing worm	Prepare an elevator speech about your research and give it to three professors whose work you cite	Give a drink ticket to someone you don't know – ask them about their work while they drink it
3	Email someone you don't know after their talk to express your enthusiasm for their work	Go to at one talk on each of the 5 taxonomic kingdoms in one day	Tweet #Evolutionbingo #lol #evol2016	Invite someone prominent to your talk and then follow up and ask if they have any feedback for you	Bring a stuffed animal of your study organism to a poster session
4	Introduce yourself to an NSF program officer	Draw a picture about someone's talk or poster, and give it to them as a present	Attend the first talk in the morning, and sit in the front row	Take your advisor to a punk rock club	Find an undergraduate, tell them about your work, then introduce them to someone more famous than you
5	Organize or join in a conga line at a coffee break	Have a party with graduate students from at least 5 different institutions	Email your CV to a prospective postdoc advisor	Add a poem to your talk or poster	Send Bree an idea for a Bingo challenge for next year at rosenblum@berkeley.edu
