

Declaring a Major in CNR

For CNR students

- Undeclared students must declare a major by the end of their 4th semester. Failure to declare a major by junior standing will result in a registration block.
- All major requirement courses must be taken for a letter grade, with the exception of breadth courses in the EEP major.

- Both halves of the Reading and Comprehension requirement must be completed by the end of the 4th semester.
- Current UC Berkeley students who enter as freshmen are expected to graduate in a total of 8 semesters.

- Transfer students are declared into a major upon admission. Students wishing to change majors/colleges must meet with their new or prospective major advisor. Such requests are rarely granted because students are expected to graduate in 4 semesters. Students cannot apply to transfer or change major in their 1st semester.
